Rob Morgan, CEO  
Cybersober.com  
1650 S. Dixie Highway  
Boca Raton, FL 33432

Dear Rob:

As you know, Focus Healthcare of Florida at High Point was recently surveyed by JCAHO. During the survey process, issues discussed included: discharge planning, treatment planning and our continued development of our MIS System. The integration of the Cybersober product allowed us to demonstrate compliance in these areas and establish our facility as utilizing a "state of the art" discharge-planning model. We received a score of 97.

In addition, in speaking with our therapists they have found Cybersober as a positive tool to facilitate patient participation in the discharge planning process, while decreasing time spent in providing this service to our patients.

I would like to thank you and the Cybersober staff for the continued support and expertise in this highly sensitive area of patient outcome.

Yours truly,

Alan Goodstat, LCSW  
Administrator  
Focus Healthcare of Florida at High Point
